A 62,208 square meter field in Sotira Lemesou is offered for sale at 280,000 EUR, a substantial parcel of land in the Limassol district of Cyprus. The plot takes in village, country, and sea views across its open ground, a combination of outlooks not common to a single parcel. Highway access sits close by, making the land straightforward to reach by car, and local amenities are also within close range.

Sotira Lemesou lies inland in the hill country of the Limassol District, a village set back from the coastal city of Limassol rather than along
